

openingFrames::openingFrames

openingFrames::operator=

openingFrames::openingFrames

```
graph LR; A[openingFrames::openingFrames] --> C[openingFrames::openingFrames]; B[openingFrames::operator=] --> C;
```

The diagram illustrates a relationship between three boxes. On the left, there are two white boxes with black borders. The top box contains the text 'openingFrames::openingFrames' and the bottom box contains 'openingFrames::operator='. On the right, there is a single gray box with a black border containing the text 'openingFrames::openingFrames'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating a flow or mapping from the left-hand expressions to the right-hand expression.
