

PlaceController::findPlaces

```
graph LR; A[PlaceController::findPlaces] --> B[PlaceController::groupedSearchResults]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "PlaceController::findPlaces". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "PlaceController::groupedSearchResults" on two lines.
