

LocalMarket::LocalMarket

Mall::Mall

Shopping::Shopping

```
graph LR; LocalMarket[LocalMarket::LocalMarket] --> Shopping[Shopping::Shopping]; Mall[Mall::Mall] --> Shopping;
```

The diagram illustrates inheritance relationships between three classes. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'LocalMarket::LocalMarket' and the bottom box contains 'Mall::Mall'. On the right, there is a gray rectangular box with a black border containing the text 'Shopping::Shopping'. Two blue arrows point from the right side of the white boxes to the left side of the gray box. The arrow from 'LocalMarket::LocalMarket' points to the top of the gray box, and the arrow from 'Mall::Mall' points to the bottom of the gray box, indicating that both LocalMarket and Mall inherit from Shopping.
