

model/visitor/placeexportxmlvisitor.h

```
graph BT; A[controller/placecontroller.cpp] --> B[model/visitor/placeexportxmlvisitor.h]; C[model/visitor/placeexportxmlvisitor.cpp] --> B;
```

The diagram illustrates a header file dependency. At the top is a gray box containing the header file path `model/visitor/placeexportxmlvisitor.h`. Below it are two white boxes: `controller/placecontroller.cpp` on the left and `model/visitor/placeexportxmlvisitor.cpp` on the right. Blue arrows point from each of these two boxes up to the header file box, indicating that both source files include this header.

controller/placecontroller.cpp
