

PlaceExportToJsonVisitor
::visit

PlaceExportToXmlVisitor
::visit

PanoramicPoints::getAltitude

```
graph LR; A[PlaceExportToJsonVisitor::visit] --> C[PanoramicPoints::getAltitude]; B[PlaceExportToXmlVisitor::visit] --> C;
```

The diagram illustrates a call graph or dependency. On the left, there are two white rectangular boxes. The top box contains the text 'PlaceExportToJsonVisitor' followed by '::visit' on a new line. The bottom box contains 'PlaceExportToXmlVisitor' followed by '::visit' on a new line. On the right, there is a gray rectangular box containing the text 'PanoramicPoints::getAltitude'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box. The arrow from the top white box points to the top of the gray box, and the arrow from the bottom white box points to the bottom of the gray box.
